

SHIRLEY JONES

JOINS THE RAINBOW FAMILY!

Oscar and Emmy winning actress Shirley Jones, who is best known for her role as the mother on the Partridge Family, contacted Rexair to see a demonstration of the Rainbow. She had a neighbor that bought one and was so impressed that she wanted to see it for herself. Darleene & Jim Madison completed the Demo and now Shirley and her husband, comedian Marty Ingels, are the proud owners of a new Rainbow! During the Demo when Darleene had pulled the 1st dirty test cloth, Marty accused Darleene of planting the dirt! He couldn't believe that there was that much dirt in their carpet! Shirley had commented that the feature that was important to her about the Rainbow was the help it would provide for her allergies. Shirley was so friendly and down to earth that she graciously allowed some photographs to be taken of her with her new Rainbow. We extend our Welcome to the Rainbow Family to Shirley Jones!
